Since Judges Earle and Johnson declined to take cognizance of the contest between the state administration and militia, general asininity Artz is prosecuting his disbanding campaign with renewed vigor. It is evident that the entire force of the state is to be reorganized on a strictly party basis, according to the plan announced some time ago.

The Lawrence World is firmly of the opinion that there will never be another Populist elected to congress from Kansas. It is certainly hoped so; but to make sure of it let every Republican, and every other good citizen who joins in the wish, bestir himself just now, and nail the lid on the Pop coffin at the election next month. This done, the final interment a year hence will be a small

The Topeka Democrat seems to have weakened in its admiration of D. B. Hill. The Democrat was the New Yorker's special champion in Kansas during his campaign for the presidential nomination. TOWNSHIP TICKETS.

The new election .law almost compels the nomination of township tickets. Republicans in every township where they have a majority or a fighting chance over Fusion should nominate a township ticket. Especially is it important to secure the trustee. Under the new election law a new duty is placed upon the township trustee, that is important and responsible. He has the appointment of all the election boards in his township. Wherever an opposition trustee is elected, you will find him, next year, fixing up the election boards to the greatest possible disadvantage to the Republican party-men who will use the most unscrupulous means to cut down the Republican votc.

The New York Advertiser compiles from the census, dating back to 1793, the following evidence of growth in the United States: We then had a population of 3,929,328. Now we have 67,186,-000. Philadelphia was the largest city, with a population of 42,520; New York second, with 23,121; Boston, 18,038; Baltimore, 13,503. BURN IT UP.

The thing to do is to put the torch to the White City and let it go up and out in a blaze of glory. Fire has been the inspiring genius of Chicago. No other city on this continent or on the face of the globe would have been equal to the glittering glory that has for six months graced the lagoons and lakeside of Jackson park. Her triumph of magical palaces have proved the nation's aureola of progression and the world's admiration. Pictures, paintings and engravings of this lambent aggregation of otherwise indescribable beauty will be treasured and guzed upon with astonishment for generations to come. No other vestige of it all should be left. It should be said of it: "and, think, they burning it up." The buildings are so constructed as to command no price be-pond the cost of removal. To sell them far, we have not heard of any. constructed as to command no price beunder such circumstances would be like a general selling the faithful old worn out horse which had carried him through manp battles for a song, instead of shooting him with military honors. The only value possible to be realized out of the buildings is the iron, not in its present structural form but as simple material, The fire would not injure the iron. The sentimental, the brilliant thing to do is to obliterate the great white creation by

Under the new election law, passed by the last legislature, judges of elections must be appointed from the three dominant parties at the last previous election. Acting under that specific direction the trouble is that there are very few Demo-erats in Kansas—not a sufficient number to make their indorsement of any value. ist to each of the election boards of that city. This raised the ire of the Democrats, who threaten to mandamus the mayor and thus compel him to place Democrats on the boards. Mayor Smith, when asked about the appointments, stated that the law was very explicit; that at the election last fall there were only three tickets in the field, and that in compliance with the law he had appointed the judges; that the ticket last fall headed with the name of Grover Cleveland was not a Democratic ticket, and had not the name of a Democrat on it that could be voted for: that from the presidential electors down it was simply the Populist ticket, nothing more, nothing less. The situation is a most humiliating one to the Democrats, but they have no one to blame for it but themselves.

FOR ODD FELLOWS' ORPHANS.

The Odd Fellows of Kansas will be called upon to pay this year \$1.05 each to furnish and equip the De Bouissers bome at Silkville, Franklin county, where orphans of the Odd Fellows of the state are to be cared for. The home consists of a magnificent farm of over 3,000 acres fully stocked with cattle horses and hogs, making a splendid property. De Bouissere, the donor was an exiled French nobleman and he left this gift to the order after having ex-perimented in several philanthropic schemes on the premises. The trus-tees' report says: "The house originally contained sixty rooms. To remedy certhe building, which improves its appearance and adds to its convenence; have also taken out partitions in some of the rooms, thereby increasing the size and making them more convenient for the various uses necessary in such an institution; also we have built stairways at each end of the building, that are of easy grade and thoroughly

"The building as now arranged will comfortably accommodate necessary help and probably seventy-five children." By some members it was considered

that the farm would be an expense upon the lodge to keep up, but after visiting it the grand lodge voted by an overwhelming majority to accept it and furnish the money to run it, confident that with propar care and arrangement it would more than pay for itself, besides giving a home to the children of deceased Odd Fellows.

THERE IS POLITICS IN IT,

From the Kansas Chief. When the opposition tells you there is no political issue at stake this year, and that it is a good time to throw party aside, and make a change, ask them why they are making such desperate efforts this year. This desperate canvass is made in the hope of keeping up their vote to a hope of keeping up their vote to a good bulk, in the hope of reassuring their wavering members, for it is believed the gang is beginning to fall to pieces. If they can show a heavy vote, will warrant them in going into another state campaign. Every Republican who permits himself to be wheedeled into voting their ticket "because there is no political issue at stake," will be counted as a voter of that party in their showing of strength. And another thing they are after. They are going to try desperately to elect as many county clerks as possible, with the deliberate de-sign of falsifying the election returns next fall, and thereby securing a legisla-ture of their own. A Stinging Reproof.

The Hour of Populat Extremity.

The Populists are getting alarmed, and with good reason, over the political situation in Kansas. They see plainly the unwelcome shadow of defeat hang-ing over the November elections. They see that the Democratic vote, that swelled their victory in 1893, is alienated, the Populist ranks in well nigh every county in Kansas. No wonder it is that Populist leaders are alarmed, and that the spectacle is witnessed in the reform(?) party of well night every state official away from duty out on the stump. It is no wonder that Hon. Jerry Simpson has been sent for in hot haste to take the stump; that the Illinois Populist orator, neck, has been employed to make a series of speeches in Kansas, etc. It is undeniably the hour of Populist extremity in this state.

The usual pictures of the gorilla do not represent him as I have seen him. He has not only a crouching habit, but he walks on all four of his legs, and has the motion of most quadrupeds, ising his right arm and left hind leg at the same time, and alternates with the left arm and right leg. It is not exactly a walk or a trot, but a kind of ambling gait, while the chimpanzee uses his arms as crutches, and lifts one foot from the ground a little in advance of the other. JEWISH ROYAL BLOOD. Reigning Houses of Europe That Have a A remarkable feature in connection

with the ancestry of all the reigning houses of Europe is the fact that nearly every one of them has strains of Semitic blood in the veins of its members, Alberia, queen of Sielly, from whom almost every one of the reigning families are descended have ing been a daughter of the old Hobrew banker, Porleoni, who was the first of his race to be admitted to the ranks of the European aristocracy. Pope Lea IX. concoling him in the year 1115. Later on one of his sons, who became converted to the Roman Catholic hurch, ascended the papal throne unler the title of Anacletus II. This however, by no means constitutes the only source of Jewish blood in the royal and imperial veins to-day. There are others of a far less remote character Thus, King Fredieand, of Portugal the grandfather of the present king had himself as grandfather a Hungarian Hebrew named Kohary, whose laughter and heiress married Prince Ferdinand of Saxe-Coburg. King Caros, of Portugal is therefore, of infubitably Jewish descent, and so, too, is Prince Ferdinand, of Bulgaria, whose features are remarkably Believie who is a grandson of old Kohary's heiress A second the latter's grandsons, Dake Philip, of Saxe-Coburg, is wedded to the eldest daughter of King Leopold of Belgium, while a third, Augusta by name, married a daughter of the late Emperor Dom Pedro of Brazil, It is one of the grand-daughters of the Kohazy beiress who is wedded to the Archduke Joseph of Austria, while another has become the wife of Duke Maximilian of Bavaria, the brother of the empress of Austria and of the exqueen of Naples. Queen Victoria's favorite son-in-law. Prince Henry of Battenburg, is a great grandson of a converted Jew named Hauke, established in Poland, and whose son won his way

into the favor of the grand duke Constantine of Russia. And apropos of this Jewish descent. let me add in conclusion the astounding fact that the country which is disinguished above all others for animosities toward the Jewish race, namely, Russia, is precisely the very one where the vein of Hebrew blood is the strongest in the blue blood of its aristocracy. There is not a single family of th higher grades of the nobility in the czar's empire which has not at one time or another during the last two centuries affiliated or intermarried with the four great princely houses of Bragagion, Davidoff, Imerietinski and Muskranski. Now, each of these claims to be descended in an unbroken and direct line from the Biblical King David. and, like the Georgian princely family of Guriel, are proud above everything else of their Jewish ancestry. Under the circumstances their undisquised antipathy to the unfortunate Hebrew subjects of the ezar appears, to say the least, to be illogical -N. Y. Tribune.

THE PEOPLE OF LAPLAND. Civilization at Its Worst Is Preferable to

Life Among Them.
The Lapps have reconciled me to civilization. They are as cunning and sharp as they can be and not in the least good natured, but somehow manage to live together without flying at each other's throats. In all instances they are not frights. I saw a few comely young women and a few crones with really intelligent and interesting faces, and some beautiful infants. But the men, without a single exception. were hideous, bow-legged dwarfs. the deteriorating influences of dirt and marrying in-and-in they add that of drink. The wife of a drunken husband is allowed, without the formality of divorce, to leave him and take a sober one, or to neglect him for one that suits her better. All have a talent for making money, and they hoard what they scrape together. The peculiar bad smell of a Lapp settlement is a compound of the smells in summer of shambles, dirty dairies, dirty kennels and of gatherings of dirty human creatures. Bluebottle flies swarm on the reindeer hides and on bladders filled with reindeers' blood that are out in the sun to dry. Their bite is venomous and may be fatal, except to Lapps The huts reek with foulness unmentionable.

It seemed counter to the fitness of things for creatures of such beauty as reindeer to be subject to those frighful dwarfs. A herd of nineteen hundred were fetched down by dogs from the field for us to see. They were a picture and so gentle that they would stand to be petted. The dogs were told, when the reindeer were wanted to go and fetch them. Off they went by themselves. In about half an hour we saw them with their charges, come down a mountain and twice ford a river on their way to the inclosure where they usually came to be milked. I was of fered a bowl of the milk, but the wooden vessel holding it was so filthy that I declined. However, a Norwegian milked a doe into a drinking born he had with him and let me taste the contents and offered me a draught, which I took. It was like the richest and sweetest cream, and, I suppose, it is just the beverage for a cold climate. A deep draught will give one indiges tion. Lapps themselves cannot drink much of it at a time. Dairles on the filds for supplying tinned reindeer's cream to the Paris market would. I have no doubt, be a financial success. A teaspoonful of it would go further than a teaspoonful of cow's cream and be more palatable.-London Truth.

the King James version, 1611. Stephen Langton, archbishop of Canterbury, first divided the Bible into chapters and verses; this about the

close of the twelfth century. The word "its" is not to be found in the first edition of the King James verion, 1611, but has been substituted for his" in the edition of 1633.

The shortest names mentioned in the Bible are Ai, Ar, Ed. Og. no. on. so. Ur. and Uz. See Jeremiah, xlix., 3; Numbers, xxi., 28; Joshua, xxii., 34; Psalms, exxxvi., 20; Jeremish xlvi., 25; Genesis, xli., 45; IL Kings, xvii., 4; Genesis, xi., 25. and Job. i. L.

The quotation "He shall be called a Nazarene," used by Matthew in the last verse of his second chapter, is not to be found in the old Testament. Robekah's brother's name was Laban,

and the name of Abigail's husband was Nabal, which is simply Laban reversed. The nineteenth chapter of H. Kings and the thirty-seventh chapter of Isaiah are alike with the exception that verse 15 of the former comprises

vese 15 and 16 of the latter. Neither the word "God" nor "Lord" is found in the book of Esther The Enhraimites could not pronounce

the word "Shibboleth." but said "Sibbolith" instead. See proof of this in Judges, xii., 6. The quotation used by Matthew in the third verse of the third chapter is

not, as is generally supposed, from the old testament. The following words are to be found but once in the Bible: Ash, atonement,

inmortal, mililons, and reverend.—St Louis Republican. A September Idyl.

you'll have that tooth out I'll coax your father to buy you a bicycle." Johnny-"Not much! Not for any steel-ribbed thing you can't kick spurs into I don't part with that tooth for nothin less'n a meat pony, an' a stepper at that."-

Carrying Power of the Voice.

The parts in speech of a common conversation may be distinguished at a distance of 460 feet, even when the air is perfectly calm. A powerful human is audible, but not distinguishable as to parts, at a distance of 15,840 feet, with the wind. The sound of a strong brass band can not be heard at a greater distance, and the report of a musket is scarcely perceivable at a distance of over 20,000 feet. In the arctic regions, when the spirit thermometer marks to or more degrees below zero Fahr., a common conversation may be carried other by upward of 7,000 feet Heavy cannonading in this laditude may be heard ninety miles.—St. Louis Repub-

How Busy Men Utilize Holidays. Holidays are curiously abused by some busy men in this town, especially lawyers, young and old. Many lawyers spend six or eight hour of every holiday in undisturbed work at their offices, where on such days they are safe from the intrusion alike of clients and friends. Others crowd the library of the Bar association, and still others work quietly at their cases in club libraries or in the privacy of their own homes. With these men and many others holidays are esteemed chiefly valuable as offering an opportunity of clearing up arrears of work -N. Y.
